

Moazzam Shah Khan

Software Engineer (Mobile & Web | Flutter, React Native, Full-Stack Systems)

+92 304-8210351 | moazzamshahkhan08@gmail.com | linkedin.com/in/moazzamshahk | github.com/moazzamshah21

EDUCATION

Bahria University of Karachi
Computer Science

Pakistan
2019 – 2024

WORK EXPERIENCE

Mattrics Pvt. Ltd.
Software Engineer

Pakistan
Aug 2023 – Present

- Engineered and deployed cross-platform mobile and web applications using Flutter, React Native, React.js, and Node.js.
- Built a multi-role real-time delivery platform (Customer, Rider, Vendor) with synchronized mobile apps and supporting web systems.
- Developed a real-time order lifecycle system using Firestore streams, enabling live updates across multiple clients.
- Implemented REST APIs and backend integrations, ensuring efficient communication between mobile applications and web services.
- Integrated Stripe payment system with webhook-based verification, ensuring secure and reliable transaction handling.
- Designed scalable backend architecture, optimizing database usage and reducing unnecessary reads in real-time systems.
- Built GPS-based live tracking system with background location updates and map synchronization.
- Implemented push notification system (FCM) for real-time updates and user engagement.
- Delivered production-ready mobile apps and web platforms, including dashboards, marketplaces, and subscription-based systems.

PROJECTS

Multi-Role Delivery Platform (Mobile + Web System) | Mobile Application

2023 – 2023

- Architected a full-stack system supporting customer ordering, rider delivery workflows, and vendor management dashboards.
- Integrated Flutter and React Native mobile apps with web-based admin/vendor panels.
- Focused on real-time synchronization, scalability, and backend efficiency.

Yalla Go Express (Super App) | Mobile Application

2024 – 2024

- Developed a cross-platform mobile application combining ride-hailing, food delivery, and logistics services.
- Implemented booking flows, real-time tracking, and integrated payments.

Flutter Audio Cropper - Flutter Package (Open Source) | Mobile Application & Web Application

2025 – 2025

- Published a Flutter package for audio extraction and trimming for media-based applications.

SKILLS

Languages : Dart, JavaScript, PHP, Kotlin

Mobile: Flutter, React Native (iOS & Android)

Web: React.js, HTML, CSS, WordPress

Backend: Node.js, Firebase (Firestore, Auth, FCM, Cloud Functions), Supabase

APIs & Integrations: REST APIs, Stripe API, Google Maps API

Tools: Git, VS Code, Cursor (AI-assisted development), Firebase Console, Android Studio, Xcode, Chrome DevTools, Redux DevTools, Stripe Dashboard, Supabase Studio, Figma
